Sewing Pattern — Coat 4383

Recommendations on fabric: fabric suitable for coats (gabardine, cashmere, tweed)

You will also need: fusible interfacing; lining; shoulder pads; 6 buttons, sleeve heads

If the pattern has a double line around it, the seam allowances are included.
Note: By default, seam allowances are NOT included (single line) and will need to be added when laying out and cutting details.

Seam allowance: all seams -1 cm; hem of the garment and hem of sleeve - 3 cm

Attention! First of all, please print all the paper patterns and lay them out at the width of fabric you plan to use (usually from 90 to 150 cm) to see how much fabric you will need. Don't forget to take into account pieces to be duplicated or cut on a fold.

When sewing the garment, pay attention to notches. They must match up with corresponding pieces.

CUTTING:

The word, "beam" used on some patterns means "straight of grain". Some pieces will be cut on the fold, this is noted on the pattern piece. Mark all notches and other design features such as darts, pleats etc. from the pattern onto your fabric.
